Bug List

Two Pointers & Sliding Windows

- Double check `while` loop conditions, especially
- Look for off-by-one errors!

Graph Traversals

- Don't forget to add your first value to the queue in BFS
- Check your visited set before continuing to avoid an infinite loop!

Binary Search

- Remember the three edge cases at the start of the transition point recipe

Prefix Sums

- If indices are from 1-N, convert them to 0 to N-1 to avoid errors
